**DISCOVER
THE LANCE
DIFFERENCE**

LANCECAMPER.COM

LEGACY. QUALITY. INNOVATION.

More than five decades after the original Lance camper made its debut, the product may have evolved but our goal remains the same: to continue building the world's best truck campers, ultra-light travel trailers and toy haulers on the market.

The lessons we have learned along this journey stand testament to our commitment to the recreational vehicle lifestyle. When you step into a Lance product the dedication to this difference is clear. You can feel a heritage of pride in workmanship.

Our Lancaster, California manufacturing plant is staffed with professionals who are devoted to staying true to our name. Working hard to adapt our tried and true practices of ultra-lightweight design and extremely durable construction coupled with the most advanced materials and processes to build your next RV.

We welcome you to join the Lance family and begin making memories today.

0 = Optional Feature

Randy & Vivian S. | Lance 1985, Toyota Tundra

We love to dry camp. When researching trailers we found Lance had all the "right stuff" for extended stays off the grid. Large fresh water and holding tanks, power saving LED lighting throughout and an optional rooftop solar panel combined with dual batteries, all the "goods" that allow us to stay out for a week or more. Vivian loves the extremely functional, luxurious layout with a spacious interior and walk around queen sized bed. Camping out in the boondocks has never been so comfortable and easy. Thank you Lance for making the perfect trailer that fits our needs.

The Lance Look

Personalize your Lance by selecting from one of three tasteful interiors, assembled by an interior design team to create both stunning and functional Lance interiors. You'll find beautiful woods, wall treatments, and fabric combinations with dinette cushions that feature reversible cushions, providing two different looks with each decor.

**Jan & David I.
Lance 1685,
Toyota 4runner**

"We are cruisers, sailing into the sunset!"

It became time to add another dimension to our dream.

As we began to shop for a travel trailer, it had to be light enough to be towed by our 2006 six cylinder Toyota 4 Runner and roomy enough to live in for months at a time. Lance was our best option for many reasons – bigger tanks, more storage, nicer amenities, AND, most importantly, we could tow it with our 4 Runner.

But the best reason was Lance's stronger construction which means we can take roads less traveled. One of our best adventures so far was the dirt, rutted road to Chaco Canyon where we were the only travel trailer in the campground.

Our motto is "50 nights a year, as long as it's FUN". After our first 10,000-mile adventure, I don't see that changing anytime soon!"

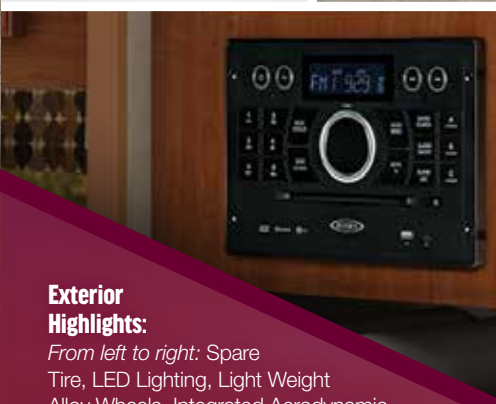

EXTERIOR HIGHLIGHTS

Available on 2295 Only

CONVENIENCE FEATURES

Exterior Highlights:

From left to right: Spare Tire, LED Lighting, Light Weight Alloy Wheels, Integrated Aerodynamic Rear Cap with LED Lights (N/A on 1475 & 1575), TPO Front Gravel Guard with Hitch Light & Jewel LED Lighting (N/A on 1475 & 1575)

Battery Charging Features:

From left to right: 160W Solar Panel, 12v/USB Charger, Converter with Battery Charger, Wired to Charge from Tow Vehicle

Features listed above include both standard and optional equipment.

BATTERY CHARGING

TOWING+COMPATIBILITY

These are general guidelines to use when matching a trailer to your tow vehicle assuming standard equipment on your trailer. The travel trailer that can be used with your vehicle and its capacities for carrying and/or towing is effected by how much optional equipment is added to the trailer, and the weight of passengers and all other items you carry in your tow vehicle and trailer.

And because we're unfamiliar with your tow vehicle, Lance makes no warranties or representation – express or implied – as to performance or reliability of your tow vehicle with a Lance trailer. For professional guidance, always consult with your Factory Authorized Lance Dealer. They're trained in properly calculating proper matches between tow vehicles and trailers.

INDUSTRY EXCLUSIVE DUCTED SYSTEM FOR OPTIMAL HEAT DISTRIBUTION

LANCE DESIGN AND CONSTRUCTION. THE LEGACY OF QUALITY BEGINS HERE.

The roof is made of energy-star rated TPO with vents that clamp in place, eliminating screws and potential leaks. Integrated rain gutters and drip spouts prevent the sides of your coach from streaking.

Rigid block foam insulation yields maximum "R" value and promotes structural strength.

Interiors are constructed of Lite-Ply™ which Lance imports from Europe. This superior product is lighter, formaldehyde free and stronger providing both beauty and durability.

3D advanced CAD engineering creates precise plans that run CNC machinery. The result is that every part is perfect every time.

Keeping it all together are stainless steel fasteners. Unlike our competitors, this expensive hardware resists corrosion making for a lasting investment.

High quality fiberglass exterior panels are laminated under intense pressure with heat-setting adhesives for years of trouble-free service.

Slideout rooms use Schwintek™ hardware for smooth, dependable operation. Lighter in weight than other mechanisms, they're also smaller, allowing for more living space.

Engineered super lightweight powder coated tempered steel custom chassis Huck bolt construction eliminates weak and rust-prone welds.

Heavy duty rubber torsion-bar suspension axles with EZ-lube bearings insure a smooth ride with easy maintenance, self adjusting brakes.

Lance's aluminum framed superstructure provides for an extremely solid trailer that is also light-weight.

Lance uses more expensive Azdel™ in place of Luan wood, virtually eliminating mold and mildew. It's also lighter and has a better "R" value for superior insulation.

High gloss TPO lower front gravel guard with jewel LED lighting is both beautiful and resilient to the abuses of the road while protecting this section of the chassis. (Select Models)

All seals use an anti-wicking material to prevent moisture from transferring to the laminate walls.
